## A Kiss

“Why does it seem that a lot of men just want to hurry right through the kisses and get into the sex as soon as possible? I can only guess that most men think kisses are not part of foreplay unless we are kissing the parts of a woman associated with sex. Now I really need all of you men to focus and understand the following; **all** parts of a woman can be associated with sex, especially if you are kissing those parts. Most of the women I spoke with stated that for them kissing is more intimate than sex. So why not linger in every kiss? She will tell you when she wants more. By being completely in the moment you will know if she wants harder more vigorous kisses or for you to continue with the soft, tender kisses over her entire body. Linger men; create a crescendo of kisses that keeps building the sensuous, romantic symphony within her to a point where she can no longer contain her soul.”
